

MIDDLE SCHOOL MUSICAL PPE FUNDRAISER

Safety is a top priority of the BBHCS Music Department. The BBHHS Band Boosters are making 2 layer bell covers for instruments. These will be made from black, high denier rip-stop, water resistant nylon with a silky polyester lining. We have researched design and materials for more than a month. Our director has tried out our 6 prototypes. We bring you the best option at half the cost that music stores and online vendors are charging! We are going to be charging \$10 each for all instrument types. We recommend that you purchase two for your child, as these will need to be washed after each use.

We have also found a supplier for a mask with a slit (for the mouthpiece), as recommended by the University of Colorado Aerosol Study. It's a two-ply mask, made of one layer of performance fabric and one layer of cotton. These will be black, with the BBHCS Bee logo on them. We can also obtain a matching mask with no slit for percussion students. We are charging \$10 per mask. We recommend that you purchase two of these as well, to be washed after each use.

We are making the bell covers and obtaining masks BY ORDER ONLY. Please complete the Google form provided by Mrs. Astey to order. We need your payment as soon as possible. You can pay on the band website with PayPal (a small surcharge will apply) or mail your payment the same day to BBHHS Band Boosters, c/o Michelle McGrath, 995 Ledgemont Drive, Broadview Heights, OH 44147.

DEADLINE FOR ORDERING THESE ITEMS IS MONDAY, 8/24/20!
